PROFESSIONAL SUMMARY

Computer Science and Business Systems student interested in technology and in solving problems is not only passionate but also skilled in coding languages. Capable of using various programming languages like Python and SQL, possesses skills related to the use of database management systems, and has knowledge of such fields as AI and automation. Interested in gaining an opportunity to make use of one's talents and advance professionally.

EDUCATION

Akashaya college of engineering and technology 2023 - 2027
B.Tech Computer Science and Business Systems *CGPA : 7.5*

RVG Hr.Sec.School 2022 - 2023
HSC *Percentage : 68.8%*

RVG Hr.Sec.School 2020 - 2021
SSLC *Percentage : 90%*

INTERNSHIPS

LET'S GAME TECH :

Gave great creativity an attention to learn about python which could be useful for programming.

CODSOFT:

I have successfully completed 4 weeks of a virtual internship program in Artificial Intelligence with wonderful remarks at CODSOFT.

PROJECTS

Automated AI-Driven Hybrid IDS/IPS for Real-Time Network Defense

Team Leader

Developed a **machine learning** application to enhance **network security** by autonomously detecting and mitigating threats. The application analyzes **behavioral patterns** to initiate real-time protective measures. Proficient in dissecting network protocols to identify features and employing intelligent models for rapid threat identification, even in active networks. The application excels at uncovering previously unseen threats, ensuring robust defense for network infrastructure.

Technologies / Tools Used : *python, Machine Learning, Vs code*

SKILLS

Programming Languages :	Python, SQL
Tools & Platforms :	Git, ui path, Excel, Claude, Chat gpt, word, vs code, GitHub
Databases :	MySQL, MongoDB
Soft Skills :	Communication, Teamwork, Time Management, Collaboration, Problem Solving, Content Creation, Decision Making
Languages :	English, Tamil

CERTIFICATIONS

Certificate from Coursera in Business Analysis & Process Management
Certificate from Simplilearn in Introduction to Cloud Computing
Certificate from Oracle in Naan Mudhalvan
Certificate from MongoDB in MongoDB Basics
